

Fri. & Sat. April 23rd April 24th

Devon Parrott, now 18 years old, was diagnosed with Long QT type 3 syndrome over 8 years ago. He was walking to class when he collapsed in the hallway but he woke up on his own. He is lucky to be alive. His life has changed, but after having an ICD implanted he is doing well and doing things he loves. When you hear of a young person that has collapsed with no apparent reason or warning signs, that is usually long QT or some other type of SADS (Sudden Arrhythmia Death Syndrome) Condition. Unfortunately, many don't make it or have to be resuscitated. Through out the last 8 years, Devon has had many ups-and-downs, along with obstacles along the way but is doing great now and a true blessing to his friends and family. We are motivated more than ever to screen more kids and possibly save someone else's life in the process!

Our 9th year was a success for Devon's Beat raising over \$18,000 and screening 230 kids, making our new total 948 kids screened.

FACTS ABOUT SADS:

• Each year approx. 4,000 children & young people die suddenly & unexpectedly due to cardiac arrhythmias.

Proceeds will be used for youth heart screenings.
